

Travel Guidelines and Tips

How to get to Davis from the Sacramento Airport

- **Airport:** The Sacramento International Airport (SMF) is located approximately 20 miles from UC Davis. Airports within a 100 mile radius include San Francisco International Airport, Oakland International Airport, San Jose International Airport and Reno (Nevada) International Airport. Traffic around Sacramento can be unpredictable, therefore you should allow yourself at least one hour of travel time from the Sacramento International Airport and 3 hours of travel time from any of the outlying airports.
- **Super Shuttle:** Reservations can be made online at www.supershuttle.com or at 1-800-BLUE VAN. Approximately \$23.00 per person/\$11.00 for each additional person one way
- **Taxi Cab** (between \$50.00- \$60.00)
- **Weather:** Expect relatively mild weather during February and March. The evening temperatures drop significantly. Rain, though unlikely, is most likely more of a drizzle than a torrential down pour. When traveling in Sacramento in the winter, severe fog is likely the concern with regard to flights in the late evening and early morning hours.
